ghe-open.ch

Data steward: Lars Schöbitz

I have:

- an Environmental Engineering degree (Dipl. Ing FH, Germany)
- 10+ years work experience (5 years as Scientific Assistant at Eawag, Dübendorf)
- experience working as a data steward at Global Health Engineering, ETH Zurich since 2021 (focus on FAIR data/code sharing & computational reproducibility)
- empathy, compassion, patience, persistence
- an affinity for IT
- RStudio certified instructor

I don't have:

- a doctoral degree
- a qualification in computer science
- a qualification in statistics

Data Stewardship activities (during project)

Teaching

- 4 ECTS course on data science with data management aspects: <https://rbtl-fs24.github.io/website/>
- 0.5 ECTS (2 x 4-hour) Open Science Tools course: <https://ost-hs23.github.io/website/>
- 2 x 2-hour workshop on Quarto for scientific writing & publishing: <https://quarto-ambition.github.io/website/>
- 2-hour workshop at RDM Summer School on Quarto for scientific writing & publishing: <https://quarto-rdmss-24.github.io/website/>

Consulting

- Support in preparation of Explore proposal to ETH Board Open Research Data program (funded): <https://fairqual.org/>
- Respond to a range of smaller requests from people at ETH in need for advice on data management matters

Data Stewardship activities (currently and planning)

- currently: none
- planning: none that are not already covered in ongoing ETH ORD projects: <https://openwashdata.org/>
